- an enjoyable course which I have never taken before,
- the quality of teaching methods was very good,
- the lectures and variety of subjects were interesting (especially road and air transport), but sometimes too difficult to comprehend if you have no previous knowledge,
- the best part was working on cases in groups,
- professor Savić is fluent in English and easy to follow
- it would be a good idea to give some cases for resolving at home and then discuss them in class,
- everything was excellent

**3. What is your overall satisfaction with course Maritime and Transport Law?

- very satisfied, but would spend more time on road and railway transport,

- very satisfied and the best part was the professor, very enthusiastic about the topics,
- the way which dr. Savić took to interact with us, many different activities helped to put knowledge into “long memory”,
- the presentations were informative and outstandingly designed at the same time
- this course was one of the reasons why I came to Zagreb, this course offers a lot, it’s not only about the knowledge, but also about thinking in more perspectives,
