

NASTAVNE TEME / JEDINICE

Studijski program: Sveučilišni integrirani prijediplomski i diplomski studij Pravo
Naziv kolegija: **EU Climate Change Law**
Šifra kolegija: 239390

1. Naziv nastavne teme/jedinice: The urgency of addressing climate change on the international and EU level						Broj sati: 3
	DIMENZIJE / RAZINE KOGNITIVNOG PROCESA					
DIMENZIJE ZNANJA	Pamćenje	Razumijevanje	Primjena	Analiza	Vrednovanje	Stvaranje
Činjenično znanje						
Konceptualno znanje		To understand the scientific basis of the urgent need for global action for mitigating climate change and the current stance of climate science on the issue. To identify the development of international climate change agreements and to describe their basic structure.				
Proceduralno znanje				To analyse the influence of international climate change law on the development of EU climate change law.	To assess the biggest challenges for the implementation of international climate change agreements.	
Metakognitivno znanje						

2. Naziv nastavne teme/jedinice: EU climate change regulation						Broj sati: 9
	DIMENZIJE / RAZINE KOGNITIVNOG PROCESA					
DIMENZIJE ZNANJA	Pamćenje	Razumijevanje	Primjena	Analiza	Vrednovanje	Stvaranje
Činjenično znanje						

Konceptualno znanje		To describe the main legal instrument that the EU is using to address climate change. To describe the advantages and disadvantages of a cap and trade system and to follow the development of the EU ETS. To describe the main legal instruments for promoting renewable energy and energy efficiency targets. To explain why unilateral climate change action leads to carbon leakage and which measures can be used to address the issue. To describe the carbon border adjustment mechanism.				
Proceduralno znanje				To analyse the main challenges for the functioning of the EU ETS. To analyse the interaction between renewable energy and energy security. To understand the repercussions of the EU carbon border adjustment mechanism on the global level regarding the distribution of burden for climate change mitigation.	To assess the consistency and effectiveness of the EU in promoting high environmental standards internally.	
Metakognitivno znanje						

3. Naziv nastavne teme/jedinice: External effects of EU climate change regulation					Broj sati: 3
DIMENZIJE / RAZINE KOGNITIVNOG PROCESA					

DIMENZIJE ZNANJA	Pamćenje	Razumijevanje	Primjena	Analiza	Vrednovanje	Stvaranje
Činjenično znanje						
Konceptualno znanje		To explain the influence of climate change on mass migration patterns.				
Proceduralno znanje				To analyse different legal venues for the protection of climate migrants in international and EU law.	To assess the development of judicial protection of climate migrants and its influence on the legislative process at the international and EU level.	
Metakognitivno znanje						

6. Naziv nastavne teme/jedinice: Geoengineering						Broj sati: 3
	DIMENZIJE / RAZINE KOGNITIVNOG PROCESA					
DIMENZIJE ZNANJA	Pamćenje	Razumijevanje	Primjena	Analiza	Vrednovanje	Stvaranje
Činjenično znanje						
Konceptualno znanje		To differentiate types of geoengineering technologies.				
Proceduralno znanje				To debate the legal challenges associated with the use of geoengineering technologies and ethical issues which arise from the idea of man-made interventions into the climate.		
Metakognitivno znanje
