

# UNIC Superdiversity School - Accessibility in higher education

Who gets access to higher education and research careers? Who faces barriers? What can we all do to foster equal opportunities? Come and join us to exchange experiences, debate, and learn!

This three-day superdiversity school will discuss questions about accessibility, barriers, and gatekeeping in higher education. We will be looking at accessibility and inclusion in particular, but choose an intersectional approach to access to higher education and research.

The event is open to students, academics, and staff. We aim to create easily accessible online events where all status groups and their contributions will be welcome.

The event is co-organized by Ruhr Universität Bochum and the University of Oulu, Finland.

**What:** UNIC Superdiversity School: Accessibility in higher education – towards a more inclusive university culture

**When:** 16.-18. November 2022

**Where:** Online via Zoom, subtitles are available for all sessions

**Registration:**
