Green Cities and Healthy Lives

How can we enhance the beauty and livability of our cities?

November 25-27 (13:00-14:00) CET Mon-Wed

bit.ly/lightning-bites-green-cities

This CityLabs Lightning Bites series features short, impactful talks from diverse perspectives, addressing the critical challenges and opportunities in promoting sustainable and regenerative tourism practices. See our [website](https://www.unic.eu) for more information on the UNIC CityLabs Lightning Bites format.

Join us for three days of bite-size talks where we explore how integrating green spaces into urban environments not only enhances the beauty and livability of our cities but also significantly improves the physical and mental well-being of residents.

	13:00 - 13:30 CET	13:30 - 14:00 CET
Mon Nov 25	Jakub Kronenberg University of Lodz "Cities, planetary boundaries, and degrowth"	Emilia Rönkkö University of Oulu "Towards pandemic-proof cities"
